

Product Information: Actyon

1) Exterior

The styling of the Actyon is not only distinguished but also unprecedented. The Actyon is characterized by coupe-inspired aerodynamic body lines. The combination of shark-like frontal design and eagle-eye headlamps project a rugged and dynamic image. In details, the clear headlamps shaped like eagle eyes convey a powerful and sharp image. Besides, the hood character line is also inspired by the shark motif. An inverted triangle is filled in by three horizontal bars for a dynamic effect.

For side view, the sleek sports coupe styled line is adopted for a unique SUV look. It is also harmonized that a sporty beltline and slanted, intersecting character lines form a lively continuum from the front fender rear edge to the tail lamps.

In terms of rear styling, the wedge-shaped concept is adopted. Therefore, the distinctive and dynamic frontal design is complemented by a graceful and uncomplicated rear view. Furthermore, the model name is spelled out in silver letters for greater elegance and a stronger identity. The rear combination lamp assembly blends with the refined, simple rear styling.

2) Interior

In order to realize driver-oriented operation for quick and easy reach, the concept of the driver-centric design is applied. The center fascia and monitor are slanted toward the driver and it provides wide view for a feeling of freedom at the wheel. In terms of switch arrangement, switches with similar functions are grouped in circles that look great and easy to locate. As a result of that, the controls are organized for and oriented to the driver.

Black tones of interior equipments with chrome also project the feel of speed and lots of amenities. Several installation such as gauge cluster to match the black interior, power steering with tilting steering wheel, circular air vents, 8 way power driver's seat, tilting headrest, ISOFIX infant seat fixation, etc. add more comfortable and safe ride to the

driver.

3) Performance

The heart of the Actyon: 'XDi200 XVT Diesel Engine' which is 3rd generation common-rail system with 1,600 bar injection pressure and 32bit ECU is solidier than that for the 1G or 2G power plants in competing SUVs. The XVT (a 3G turbocharger) system delivers maximum torque over a long range than the competing VGT engines do. Since the 3G XVT delivers maximum torque over a wider range than other engines in this class do, the Actyon is proud to have top level of output in its class.

4 Speed Auto and 5 Speed Manual Transmission that the Actyon only offers among competing 4WD models and double wishbone front & 5 link rear suspension delivers best ride comport and handling with improved fuel economy as level of combined fuel consumption of 7.8ℓ/100km (M/T) and 8.5ℓ/100km (A/T). SsangYong applies 'Part-time Electronic 4WD System into the Actyon as well as the Actyon only offers 4WD low gear among competing models. The Actyon also can tow heavier loads than its competing models with maximum 2,300kg of top towing capacity

4) Safety

Cutting-edge technology to ensure the safety is available on the Actyon. Sophisticated 'Multifunction Electronic Stability Program' that offers BAS (Brake Assist System), FTCS (Full Traction Control System), EBD ABS (Electronic Brake-force Distribution Anti-lock Brake System) and ARP (Active Rollover Protection) up to HDC (Hill Descent Control) to enhance safety are the SsangYong's latest technology for its active safety in the Actyon.

In addition, for passive safety, collapsible steering column, electrochromic mirror, back warning system, seatbelt reminder, rain sensing wipers, automatic door relock, automatic washer, door impact bar, ultra-rigid 3 layer frame, dual airbags for driver and front passengers and curtain airbags are safety features that SsangYong sees it as basics .

5) Security & Convenience

Security considerations do not end the moment the driver switch off the engine. The Actyon has several features to ensure the protection of the driver and passengers and property after the driver leaves the vehicle.

The immobilizer that offered in the Actyon is an advanced antitheft device that prevents the vehicle from being started with an unauthorized key. However, the immobilizer has various functions such as panic alarm, door button, automatic door relock, car finder lamp functions.

The Actyon also maintains ultimate cabin comfort with high features of convenient equipment such as fully automatic air conditioning, air quality control system delivers another comfort while in drive. Besides, safety sunroof, safety window & switches, heated rear glass, wiper deicer, 8-way power seat adjustment switches, cabin lamp system, battery management system, parking brake warning signal are also providing another driving experience in the Actyon.
